Compare Entropy Functions

See Coupled Functions file for the CoupledEntropy Function.

The Tsallis and Normalized Tsallis entropy functions are related to the non-root form of the Coupled Entropy

$$\text{TsallisNormalizedEntropy} = (1+\kappa)\ \text{CoupledEntropy}$$

$$\text{TsallisEntropy} = (1+\kappa)\ \text{Sum}\left(p_i^{1+\frac{\alpha\kappa}{1+\kappa}}\right)\text{CoupledEntropy}$$

In[128]:=
```
TsallisEntropy[dist_, κ_, α_ : 1, d_ : 1, limits_ : {-∞, ∞}, normalize_ : False] :=
  If[normalize,
   (1 + κ) CoupledEntropy[dist, κ, α, d, limits, False],
   (1 + κ) CoupledEntropy[dist, κ, α, d, limits, False] ∫_limits[[1]]^limits[[2]] PDF[dist, x]^(1+α κ/(1+κ)) dx
  ];

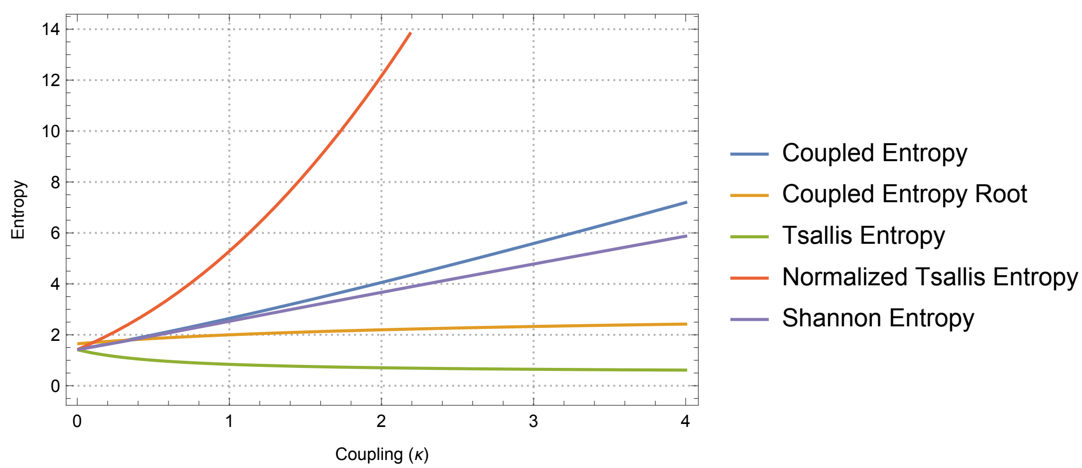
TsallisRootEntropy[dist_, κ_, α_ : 1, d_ : 1, limits_ : {-∞, ∞}, normalize_ : False] :=
 If[normalize,
  (1 + κ) CoupledEntropy[dist, κ, α, d, limits, True],
  (1 + κ) CoupledEntropy[dist, κ, α, d, limits, True] ∫_limits[[1]]^limits[[2]] PDF[dist, x]^(1+α κ/(1+κ)) dx
 ]
```

Plot Comparison

Compare entropies when the coupling matches the distribution

In[109]:=
```
PlotCoupledEntDist[2]
```

Out[109]=



In[108]:=
```
PlotCoupledEntDist[α_] :=
